PROFESSIONAL OBJECTIVE

To obtain a position as an Electronics Technician where my knowledge, skills, training, and direct field experience will be utilized and challenged, while offering opportunities for continued growth.

QUALIFICATIONS SUMMARY

A dedicated professional with proven abilities in all facets of electronics, technical maintenance, communications and navigation systems, and diagnostics. Known as a highly adaptable, results-oriented, and perceptive individual who strives to meet expectations and streamline operations.

Skills and knowledge include:

Electronics Repair & Maintenance
Expertise in Wiring/Troubleshooting
Corrosion Control/Damage Control
Maintenance Logs/Documentation

Aircraft/Avionics Technical Repairs
Video Cables/Communications Systems
Personnel Training/Development
Scheduling/Planning/Strategy

HIGHLIGHTS OF PROFESSIONAL EXPERIENCE

UNITED STATES NAVY – USS GEORGE WASHINGTON

Avionics Technician.....06/07 – 08/11

- Performed scheduled and unscheduled maintenance on communication, navigation, and weapons control systems onboard F/A-18C aircraft and related equipment/components
- Assisted in incorporating AFC-408 Direct Video Modification on 11 squadron aircraft
- Conducted over 200 Forward Looking Infrared (FLIR) pod removals and installations while maximizing efficiency – maintained a 100% FLIR availability rate
- Diagnosed and corrected complex wiring discrepancies throughout equipment and systems
- Performed preventative maintenance on communications systems and associated equipment
- Repaired difficult radar video problems and returned equipment to fully operational status
- Trained, supervised, and developed new personnel in all facets of technical maintenance
- Served as Release and Control Team Leader in charge of weapons release checks

UNITED STATES NAVY – USS ENTERPRISE

Avionics Technician.....03/04 - 06/07

- Performed scheduled and unscheduled maintenance on communication, navigation, and weapons control systems onboard F/A-18C aircraft and related equipment/components
- Maintained oversight for the daily inventory of over 300 weapons replaceable assemblies
- Tasked to manage repair and distribution operations for AAS-38 Laser FLIR pods
- Developed a comprehensive knowledge of all facets of Workcenter management protocols

CAREER AWARDS

National Defense Service Medal, Meritorious Unit Commendation, Global War on Terrorism Medal, Flag Letter of Commendation, Sea Service Deployment Ribbon

EDUCATION

United States Navy – Various Locations

Extensive Advanced Electronic Training

East Burke High School – Icard, NC

H.S. Diploma
